OBJECTIVE

To obtain an internship in the field of electrical engineering for Summer 2027.

EDUCATION

Youngstown State University (YSU) – Youngstown, OH
College of Science, Technology, Engineering, and Mathematics (STEM)
Rayen School of Engineering – ABET Accredited
Bachelor of Engineering in Electrical Engineering

- Expected Graduation: May 2028 | GPA: 3.31/4.0

SIGNIFICANT COURSEWORK

Digital Circuits	Logic Systems Design	OrCAD Technology
Circuit Theory 1&2	Digital Circuits Lab	Instrumentation and Computation Lab 1&2

COMPUTER SKILLS

Electronic Circuits	MATLAB	OrCAD Technology	C++
Embedded Systems	KiCAD	Microsoft Office Suite	PCB Design

SIGNIFICANT PROJECTS

- MATLAB Thermocouple Algorithm* *Engineering Concepts, Fall 2025*
- Developed a MATLAB program to analyze temperature-time data collected from a thermocouple.
 - Applied the program to multiple heating and cooling datasets to ensure consistent and reliable results.
- Personal Engineering Portfolio Website* *Independent Project, Summer 2026*
- Designed and developed a responsive personal portfolio website using HTML and CSS.
 - Implemented a modern user interface featuring responsive layouts and custom styling.
- DC-DC Buck-Converter PCB Circuit Design* *Independent Project, Summer 2026*
- Designed a buck converter using KiCAD to create a wire schematic with LM2596S-ADJ Regulator.
 - Utilized KiCad software to design and create a PCB layout of the wire schematic.

WORK EXPERIENCE

- AI Software Specialist, Handshake AI* February 2026 – Present
- Work with audio, videos, and text to help train AI systems to work more accurately.
 - Demonstrate discipline, time efficiency, and resolve problems to maintain productivity.
- Lead Stock Associate, Mr. D's Food Fair, Brookefield, OH* March 2021 – March 2026
- Coordinate and lead a team responsible for stocking multiple store departments efficiently.
 - Demonstrate leadership, delegate tasks, resolve problems and mediate team issues to maintain productivity.
